

# TOBAGO

## Virtual Tour - Explore Tobago like a bird...

### Virtual Tour Tobago

This is the place to explore Tobago in a totally new and spectacular way. Like a bird... From Charlotteville to Pigeon Point, from Mt. Irvine to Roxborough. From waterfalls to remote beaches..

### The place to be...

There is no other tool, that is showing places in Tobago better than www.virtualtour-tobago.com. It's the amazing interactivity, that makes the difference.

### "Wow!"

*That's what I hear all the time, when I show the virtual tour Tobago to locals and international guests alike. And they are all right with their WOWs: the first time it is possible to explore Tobago just by click. WOW!*

*I am happy to assist you, if you have any questions how to join virtualtour-tobago.com.*

*Sven Diers*

### Cool scenes...

You decide, what to look at and how to watch the locations. By clicking and navigating with your mouse or fingers on a tablet and phone - easy as that! It is working on all devices, but the best performance you will experience on a bigger screen or notebook. Watch Tobago's highlights, fine hotels, villas, guesthouses or even properties to buy. We have it all - and if not, feel free to join us. Please see the options on the next page.

### How does this work?

We will set up a meeting at your place for a little chat and the shooting. In case you book option 3 (your own virtual tour) we might have to stay 1-3 nights for the shooting according to the weather conditions/the best light and the "vibes" of your place and attractions nearby.
